

ASA Statement on Violence Toward AAPI Community

“ASA is deeply saddened and outraged by the escalating violence and ongoing harassment directed at Asians and Asian-Americans.

We stand in solidarity with students and families, educators and community leaders who are trying to make sense of the tragic deaths of eight people in Atlanta—six of whom were Asian American women.

We not only condemn these attacks, but we condemn the racist rhetoric that fuels them.

As we mourn those who were lost, we affirm our commitment to addressing our own internalized biases, supporting our colleagues who have faced this discrimination and hate, and becoming a more diverse, equitable and inclusive organization working toward a more just and kind society.”
