

UNIT 2: UNDERSTANDING OPTIONS: CAREER EXPLORATION

Module 5

Module 5: Career Clusters

Topics: Career Exploration, Career Clusters, Knowledge Inventory

In this module, learners will:

- Make word associations with new vocabulary as a preview
- Learn the 16 Career Clusters
- Categorize careers into their respective career clusters

Learner Objectives:

- Recognize the 16 Career Clusters
- Classify careers into their respective clusters

Lesson Plan:

Career Clusters Slideshow

Explain to students that career clusters are a group of careers that share similar features.

Share the [Google Slides slideshow](#) for students to design a slide for each cluster. Each slide should include a description of the cluster and images of two careers that would fit in that cluster.

Websites students can use for their research:

- <https://careerwise.minnstate.edu/careers/clusters.html>
- <https://careervision.org/career-clusters-2/>
- <https://www.onetonline.org/find/career>

Career Clusters Matching

Share the [Career Clusters Matching activity](#) for students to complete after they have done their research for the Career Clusters Slideshow.

Exit Ticket:

Share the [Module 5 Exit Ticket](#) for students to complete their responses.
