

UNIT 2: UNDERSTANDING OPTIONS: CAREER EXPLORATION

Module 5

Module 5: Career Clusters

Topics: Career Exploration, Career Clusters, Knowledge Inventory

Learner Objectives:

- Recognize the 16 Career Clusters
- Classify careers into their respective clusters

Lesson Plan:

Career Clusters Slideshow

Explain to your child that career clusters are a group of careers that share similar features.

Make a copy of the [Google Slides slideshow](#) for your child to be able to edit and design a slide for each cluster. Each slide should include a description of the cluster and images of two careers that would fit in that cluster.

Websites students can use for their research:

- <https://careerwise.minnstate.edu/careers/clusters.html>
- <https://careervision.org/career-clusters-2/>
- <https://www.onetonline.org/find/career>

Career Clusters Matching

Save a copy of the [Career Clusters Matching activity](#) for your child to complete after they have done their research for the Career Clusters Slideshow. In order to complete this, they can either copy & paste the careers into the correct box or type them in.

Exit Ticket:

Save a copy of the [Module 5 Exit Ticket](#) for your child to type in their responses.
